

# Punto di controllo 1

This is an appropriate point to review and/or assess progress, and the activities on pages 39–42 of **Talk Italian** are designed for this purpose.

The following activities could be used for extension work:

- Activity 4 could lead to brainstorming of other Italian wines/drinks and/or Italian food, then used to reinforce pronunciation/spelling.
- Learners work in pairs or groups to produce their own crossword along the lines of Activity 8 for other groups to solve.
- Activity 9 could be a model for learners to write a short description of themselves.
